NATIONAL GUARD REQUIREMENTS:

1. Must be in compliance with physical fitness, height, weight, and body fat measurement standards as listed in AFI 36-2905.
2. If selected member is pregnant, orders may commence as long the member can safely perform duties within the restrictions of the AF 469 and with chain of command approval.
3. If required, we will initiate an investigation for a security clearance. Unfavorable results will be cause for your immediate separation.
4. Individuals who cannot obtain 20 years of Active Federal Service prior to reaching mandatory retirement, age 60 for enlisted personnel, or mandatory separation date for officers and those within their first 24 months of an AGR assignment or reassignment must submit a Statement of Understanding prior to the closing date of this announcement. If selected you must submit a Waiver for Exceptional Circumstances through the HRO remote to the HRO for approval. Waivers must justify why it is in the best interest of the unit, State, or Air National Guard.
5. You must meet eligibility requirements of AFI36-2101 Classifying Military Personnel (Officer and Enlisted) and ANGI 36-101 (The Active Guard/Reserve Program).
6. Applicants for E-8 positions must have the ability to complete Senior Noncommissioned Officer Academy within 36 months of assignment IAW para 2.20.1 of ANGI 36-2101.
7. Individuals selected for Control Grade positions are subject to Control Grade availability.

Acceptance of this position requires participation in the Direct Deposit/Electronic Funds Transfer Program

EVALUATION PROCESS: Each applicant must **FULLY SUBSTANTIATE** on their application how they meet the requirements listed in the specialized experience area; otherwise applicant will be considered unqualified for this position. Applications will be evaluated solely on information supplied in the application (NGB Form 34-1) or resume. Experience will be evaluated based on relevance to the position for which application is being made. Include job titles, starting and ending dates (month and year), hours per week, salary, duties/accomplishments, employer(s) name and address, and supervisor(s) name/phone number and permission to contact.

EQUAL OPPORTUNITY: The Arizona National Guard is an Equal Opportunity Employer. Selection for this position will be made without regard to race, religion, age, national origin, sex, political affiliation, marital status, membership or non-membership in an employee organization or any other non-merit factor.

KNOWLEDGE, SKILLS AND ABILITIES REQUIRED FOR SUCCESSFUL PERFORMANCE IN THIS POSITION:

Each applicant should fully justify on their application how they meet each KSA listed below using AZNG Form 335-2-R to reference the justification.

1. Ability to analyze functional IT requirements and shortfalls, translate finding into functional requirements, develop supportable recommendations for enhancement, and apply a wide range of methodologies and tools.
2. Ability to maintain an up-to-date awareness of technological advances and predict how management can meet future requirements.
3. Knowledge and skills in vulnerability management to include identification, mitigation, and reporting techniques.
4. Knowledge of the techniques used to manage server platforms and shared storage within a virtualized environment.
5. Knowledge and skills managing Local Area Networks to include topologies, data transfer media, switching, network operating systems, directory services, domain accounts, and resources.
6. Ability to communicate both orally and in writing.

SPECIALIZED EXPERIENCE: Must possess 36 months experience which demonstrates the ability to provide technical and professional leadership at the Base Network Operations Center level. Experience must demonstrate the candidate's skill in using modern information technology systems to provide unique solutions to problems of varying scope and complexity and provide core network services by configuring, installing, and managing data services at the network hardware, software operating system, and server application level. Experience must also include controlling and managing network IP address space, network directory services, storage area network, active directory, virtual private network, network print services, boundary protection, 802.11 wireless architecture, electronic messaging services, Standard Desktop Components, Microsoft Windows based infrastructures, VMware infrastructures, and System Center Configuration Manager. Additional experience must be demonstrated in vulnerability management and mitigation practices in concert with DISA IAVM and AF TCNO releases.

BRIEF JOB DESCRIPTION: This position is located in the Network Operations work center within the Operations Flight of an Air National Guard base Communications Flight. The purpose of this position is to serve as a base systems administrator to monitor classified and unclassified Local Area Networks (LANs), including the planning, analysis, acquisition, design, development, implementation, quality assurance, configuration, installation, integration, maintenance testing, operational integrity, and/or management of networked systems for the transmission of information in voice, data, and/or video formats. Analyzes LAN utilization statistics through data collection and performance measures to ensure the smooth, reliable, and robust operation of LAN(s). Assists in the development, configuration, installation, and maintenance of network systems to ensure network robustness in serving the business needs of the installation. Implements new network operating systems hardware/software and develops base-wide network operating

procedures. Reviews, evaluates, and fine-tunes components such as switches, routers, and network control devices to achieve peak efficiency within the overall network operability. Receives and implements network, communications, and related operating systems from various sources such as DoD, Air Force, Air National Guard, and commercial vendor release authorities. Forecasts and prepares recommendations, justifications, and specifications for LAN equipment and future technology integration and works issues for compatibility and standardization based on current and projected customer needs. Uses benchmarks, performance measurement, and evaluation data, in conjunction with modeling and simulation techniques in planning for increased capacity and to support additional workloads. Recommends methods and procedures and coordinates corrective action to optimize utilization of present equipment. Coordinates LAN component installation, maintenance, and troubleshooting. Identifies and documents network and system configurations. Maintains an inventory of all network hardware and software. Conducts problem analysis to identify trends, ineffective practices or procedures, and equipment shortcomings. Determines if the facility and infrastructure environment can support network system requirements. Identifies current and potential performance or capacity problems and plans for changes to avert problems. Works with local and enterprise technical support personnel in resolving problems. Serves as a network security administrator and ensures the rigorous application of information security policies, patches, and mitigation strategies. Performs data backup and recovery, to include system configuration and user data. Performs other duties as assigned.
